

# Handbook of Small Animal Imaging: Preclinical Imaging, Therapy, and Applications

## Table of Contents

### **INTRODUCTION TO SMALL ANIMAL IMAGING, THERAPY, AND APPLICATIONS**

Defining Small Animal Imaging, Therapy, and Applications

*Nancy L. Ford, George K. Loudos, Dimitrios N. Karnabatidis, and George C. Kagadis*

Ethics and Regulations for Research with Animals

*William R. Hendee*

Small Animal Handling, Care, and Anesthesia

*Tamara Godbey*

Preclinical Models

*Irene Cuadrado, Jesús Egido, Jose Luis Zamorano, and Carlos Zaragoza*

### **SMALL ANIMAL IMAGING: IONIZING RADIATION**

Microcomputed Tomography

*Nancy L. Ford*

Digital Subtracted Angiography of Small Animals

*Stavros Spiliopoulos, George C. Kagadis, Dimitrios N. Karnabatidis, G. Allan Johnson, and Cristian Badea*

Single-Photon Emission Computed Tomography

*Matthew A. Lewis*

Positron Emission Tomography

*Vesna Sossi and Matthew Walker*

### **SMALL ANIMAL IMAGING: NONIONIZING RADIATION**

MR Imaging

*Dmitri Artemov*

Optical Imaging

*Matthew A. Lewis*

### **HYBRID IMAGING**

Optical-CT Imaging

*Xueli Chen, Dongmei Chen, FengLin Liu, Wenxiang Cong, Ge Wang, and Jimin Liang*

PET/CT

*Mohammad Reza Ay and Nafiseh Ghazanfari*

Introduction to Combining MRI with PET

*Volkmar Schulz, Jakob Wehner, and Yannick Berker*

Exotic Imaging Approaches

*Maria Koutsoupidou and Irene S. Karanasiou*

### **IMAGING AGENTS**

X-Ray, MRI, and Ultrasound Agents: Basic Principles

*Michael F. Tweedle, Krishan Kumar, and Michael V. Knopp*

Radiochemistry for Preclinical Imaging Studies

*Sven Macholl and Matthias Glaser*

Molecular Targets and Optical Probes  
*Eleni K. Efthimiadou and George Kordas*

### **THERAPEUTIC RESEARCH PLATFORMS**

Developing Technologies for Small Animal Radiotherapy

*Frank Verhaegen, James Stewart, and David Jaffray*

Dosimetry of Ionizing Radiation in Small Animal Imaging

*Michael G. Stabin*

Treatment Planning for Small Animals

*Frank Verhaegen*

Radiolabeled Agents for Molecular Imaging and/or Therapy

*Dimitrios Psimadas and Eirini A. Fragogeorgi*

### **IMAGE QUANTIFICATION**

Quantification in Nuclear Preclinical Imaging

*Istvan Szanda*

Performance Assessment of Small Animal Imaging Systems and Common Standards

*Nancy L. Ford*

Monte Carlo Simulations in Imaging and Therapy

*Panagiotis Papadimitroulas, George C. Kagadis, and George K. Loudos*

### **APPLICATIONS: INCLUDES BOTH IMAGING AND THERAPY**

Small Animal Imaging and Therapy: How They Affect Patient Care

*Lawrence W. Dobrucki*

Applications for Drug Development

*Jefica Kalra, Donald T. Yapp, Murray Webb, and Marcel B. Bally*

Imaging of Intracellular Targets

*Veerle Kersemans*

Imaging of Cell Trafficking and Cell Tissue Homing

*Veerle Kersemans*

Imaging of Cardiovascular Disease

*Aleksandra Kalinowska and Lawrence W. Dobrucki*

Imaging Angiogenesis

*Lawrence W. Dobrucki*

Imaging of Hypoxia, Apoptosis, and Inflammation

*Stavros Spiliopoulos and Athanasios Diamantopoulos*

Vessel Wall Imaging

*Stavros Spiliopoulos*
